Major project elements are two flow meter vaults, buried yard piping and valves, flow control valve vault, concrete equipment pads, three air handling units, modifications to two existing air handling units, relocation of three vertical turbine pumps and motors, and handling and installation of TMWA furnished equipment including three vertical turbine pumps and motors, three adjustable frequency drives, distribution switchgear, and utility metering switchgear.. Associated work includes demolition, excavation, grading, piping, valves, site electrical and instrumentation and control.

A DOCUMENT DEPOSIT is required due to Homeland Security issues. TMWA is responsible to ensure that Plans and Specifications are returned after a project is bid. Contractors are required to return the complete plans and specifications to TMWA within thirty (30) days of project bidding.

In an effort to simplify administrative procedures for both TMWA and our contractors, we are instituting a new policy for all future projects. A \$250.00 ("Homeland Security Document Deposit") will be required the first time a contractor bids on a project. The funds will be deposited into a TMWA account. If the plans and specifications are returned to TMWA, the funds will be retained for future projects. Interest will accrue for the period of time the deposit is held. Your deposit and interest are refundable at any time upon written request.

If the plans & specifications are not returned to TMWA, your deposit will be retained by TMWA and you will be required to submit a new deposit for the next project. If you have more than one set of plans that are not returned, TMWA will bill you for the balance at \$250.00 a set and you will not be permitted to bid on future projects until your balance is paid and a new \$250.00 deposit is submitted to TMWA. Be sure to include your company name, phone number, fax number, and address on your check.
